**PRINTING AND PHOTOGRAPHY DIVISION
WEEKLY REPORT FOR PERIOD ENDING
10 November - 16 November 1983**

I. Items or Events of Major Interest that have Occurred During the Preceding Week

A. Wang Product Demonstrations: P&PD representatives will attend a Wang product review/demonstration at the Rosslyn facility on Wednesday, 16 November. An item which will be of special interest is the Wang Professional Image Computer. An image scanner/digitizer for line art and text will be introduced as a peripheral to this system.

B. JPRS Activity: Activities this past week relating to the P&PD takeover of JPRS have included the finalization of the initial implementation plan, the conversion of JPRS distribution information to the automated P&PD Whiz System, and discussion with LSD concerning JPRS/P&PD courier schedules.

C. MIS Activities: Development of the new MIS on NOMAD is continuing at a good pace. The input menus for the Vendor File and the Inventory File have been completed. The remaining elements of the Supply module will be completed by the end of November.

D. Television Activities: The first report from the new P&PD-based Agency inventory of television production equipment was distributed to respective Agency components for their review.
